Dear Valued Customers,

We would like to offer this communication regarding Aero Consultants (UK)'s response to the COVID-19 health emergency. Our leadership team are closely monitoring the status of the outbreak and its potential adverse impact on supply chain continuity across our customers and suppliers.

None of the materials supplied to Aero Consultants are currently manufactured in any of the worst affected areas and we are not aware of any current issues relating to either the manufacture or delivery of any products. We are, of course, keeping up to date with any changes in the situation.

Aero Consultants continues to communicate regularly with our suppliers to capture updated status information and will keep our customers informed of any changes or issues in our supply chain.

The health and safety of our employees remains our top priority and we are complying with all government requirements associated with our warehouse and office operations. Until further notice we will no longer be accepting any visitors to our offices in Huntingdon, unless they are deemed as critical and have been given prior approval. Any visits by our staff will be undertaken in line with the most recent government guidelines and the policies of our customers.

If you have any questions relating to this situation, or any other, then please do not hesitate to contact us.

We sincerely thank you for custom and hope that we can all get through this very troubling time safe and well.

Darren Coniff
Sales and Marketing Director
Aero Consultants (UK) Ltd.
